

Rosie SmartScale®

THE ACCURATE WEIGH FOR LONG TERM CARE!

VERSATILE, ACCURATE, DURABLE AND PORTABLE

The Rosie SmartScale family of digital wheelchair, chair and standing scales is designed to meet the needs of Long Term Care facilities, delivering the most accurate Weight and BMI calculations up to 1,000 lbs. with intuitive, easy-to-understand controls. Manufactured to rugged-duty Rosie standards, these scales are versatile, accurate, safe, easy-to-use and include outstanding 3-year warranty and technical support. The Rosie SmartScale can be used as a stand-alone system or with the bluetooth option as a building block for future installation of RosieConnect®, synchronizing measurements with resident and caregiver ID and automatically downloading to the resident's record in a receiving EMR.

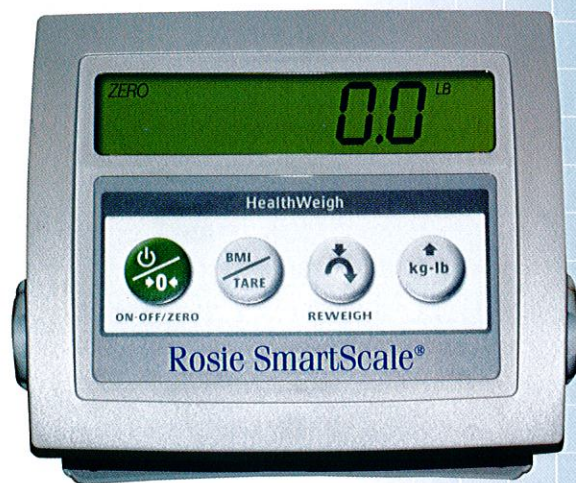

DIGITAL CHAIR SCALE:

With a weighing capacity of up to 600 lbs., this is easy-to-use, space-saving chair features quiet portability with integrated, heavy-duty wheels and a streamlined design. Independent swing-up arms enable easy access and resident transfer from either direction. Motiontrap™ technology eliminates inaccuracies caused by involuntary movement. Easy-to-use BMI function assists your team in clinical evaluations. Quick-cleaning seat surface optimizes caregiver time-savings.

THE ACCURATE WEIGH FOR LONG TERM CARE!

VERSATILE, ACCURATE, DURABLE AND PORTABLE

The Rosie SmartScale family of digital wheelchair, chair and standing scales is designed to meet the needs of Long Term Care facilities, delivering the most accurate Weight and BMI calculations up to 1,000 lbs. with intuitive, easy-to-understand controls. Manufactured to rugged-duty Rosie standards, these scales are versatile, accurate, safe, easy-to-use and include outstanding 3-year warranty and technical support. The Rosie SmartScale can be used as a stand-alone system or with the bluetooth option as a building block for future installation of RosieConnect®, synchronizing measurements with resident and caregiver ID and automatically downloading to the resident's record in a receiving EMR.

WHEELCHAIR SCALE SERIES:

Delivers capacity up to 1,000 lbs. on safety-engineered, non-skid, easy-mount, dual-ramp platform with handrail to support standing residents and augment safety for residents in wheelchairs. Auto-subtract wheelchair weight functions plus Motiontrap™ technology ensure accurate weight even when residents are not able to be completely motionless. The easy-to-use Body Mass Index (BMI) function assists your team in clinical evaluations. This versatile scale is offered with the option of a built-in, padded seat for multi-purpose weighing as a chair scale. Simply unfold the seat for use — or tuck away when not in use.

SPECIFICATIONS AND FEATURES:

- + **Capacity:** 1,000 pounds (450 kg)
- + **Accuracy:** 0.2 pounds +/- (0.1 kg +/-)
- + **Platform Dimensions:** 29.5" wide x 32" long
- + Non-skid Platform with Dual Ramps and Handrail
- + Body Mass Index (BMI) function
- + MotionTrap Technology (movement compensation)
- + Auto-Subtract Chair Weight (TARE) functions
- + Large LCD Display with easy-to-operate function keys
- + **Battery:** Long-life, 75 hour run time (8 hour charge)
- + Folding, 2-wheeled feature optimizes relocation in facility
- + **RosieConnect Building Block** (with Bluetooth option)
- + **3 Year Warranty:** Telephone Tech Support; (escalation as required), Parts, Repairs, Replacement (exception: user abuse)
